Trip in a Sec

Gosummy has always been part of avant-garde technology and now offers all of us a Trip in a Sec.

This new experience will revolutionize our lifestyle, as it will enable us to experience travel as pleasant rather than being a hassle.

Just think of the place of your desire and Trip in a Sec will swiftly take you there by state-of-the-art teletransportation! Imagine yourself climbing Mount Everest but the many obstacles and risks, prevent you from reaching its peak. Now you just have to press a button and there you are, right on top of the highest mountain in the world...and smiling.

Imagine you're in the middle of winter and you'd like to spend a weekend at a sunny beach in total holiday bliss. You no longer need to make expensive hotel and flight reservations or spend any precious time on traveling. Trip in a Sec, will arrange all of this in just a second. Visualize the place of your dreams and off you go! Please don't forget to take with you a picture of the place you departed from, otherwise you'll be obliged to return by subway, train, airplane or any other old-fashioned means of transportation!

We advise you to bring a recent picture of the place you'd like to visit. We've had complaints from people who were teletransported to Southern Java, Indonesia only to find their destination in complete devastation because of the recent Tsunami. So please get an update of your destination first and then...you're off in a flash!

Please be aware of certain risks when traveling with Trip in a Sec. Being transported with such high speed requires accurate navigation as to avoid taking you to dangerous surroundings like the middle of the shark-infested Pacific Ocean. We also strongly advise you not to utter phrases such as "go to hell!" or "eat me earth!" as the Trip in a Sec device will literally execute these commands.

Another precaution to be taken is not to use it while at work since there have been reports of mass disappearances from many companies and sharply declining productivity rates and turnovers.

This has had a negative impact on the economy, also causing unemployment and bankruptcy.

We wish you a pleasant journey and: hope to see you in a sec!

Make Me Believe

The Make Me Believe device is the most revolutionary invention of the present millennium. Our patented Gosumy "Make Me Believer" will give you sense in life. When you feel depressed and disillusioned, the Make Me Believe will turn your worries into sheer joy! Religion used to be the ultimate 'believe system' but the advanced Make Me Believe is a superior alternative. It will easily replace previous methods and instruments. Now you will effortlessly gain faith and fulfill any ambition. Once you connect yourself to the device it will trace in your metabolism your original DNA that will stimulate the synthesis of believing hormones; In turn, these will give you the joy and the pleasure of believing.

You do not need to read any sacred literature or to make use of icons or statues. All you need to do is plug yourself into our Gosumy device and off you go! Get to know the mysteries of faith. Gosumy has found these astounding substances and has reproduced them from historical characters such as Jesus Christ, Moses, Mohamed, Buddha, Gandhi, etc.

Be ready for the new millennium as we will show you THE way!
